

KAYLA SCHILHAB

For Tri-County Point POA Board
Secretary

BACKGROUND

My husband Brent and I purchased our property in March 2020, and ever since we have been working on creating a home away from home for our 4 wonderful children. I currently am in my last year of college where I am working on obtaining a bachelor's in business management with a minor in finance and will be graduating in May 2022. In our spare time my family and I enjoy fishing, camping, and spending as much time as we can with our extended families.

WORK EXPERIENCE

I currently work for a company out of Houston who serves as consultants for school districts managing their Construction Bond Programs. I have been with this company for a little over 9 years and serve the company as their Senior Project Controls Manager, where I am responsible for managing Construction Bond Program Funds, Documents, and schedules. In my nine years with the company, I have had the pleasure of managing Houston ISD 1.89-billion-dollar Bond Program and most recently at Lamar CISD 2014, 2017 and 2020 Bond Programs. Over the years I have been tasked with managing multiple teams and companies and believe my experience in the Construction Management and Project Controls will be an asset to the community.

VISION

As the Secretary my goal is to transform the community into a place where community members can spend time and enjoy a community that makes them proud. I am currently serving as the Board Secretary and feel that there are several improvements that can be made to keep the lines of communication open and provide transparency to the community members. My main goal would be to achieve more active support within the community by setting up committees so that community members have a say in what is going on with everyday transactions within the community. The process of revamping the POA is going to take time and effort on all parts associated with the community. I would like to spend time investigating ways to make the POA more profitable which starts with establishing proper budgets and be held accountable for maintaining the POA funds in a proper manner and provide appropriate reporting to the community. The community has several great assets and would love to utilize our recreational areas and provide improvements and more amenities for the community to enjoy.
