Lecture Descriptions

One hour lectures including Q & A

What If? How Come? and Why Not?

I have always been one to question...everything and everyone, just ask my Mom! This fun, fast paced lecture will show you the wonderful things you can achieve by not always following the rules. Includes loads of quilts and stories of my misadventures.

This lecture will leave you questioning, "What If?...How Come...and Why Not?".

Creativity? What Is It? and How Can You Get Some?

So you think you're not creative? Can only follow a pattern? Think again. I have always been called creative and would love to share some of the methods I use to live up to that label. We will take a look at my creativity (both good and bad) in quilting, starting with my very first quilt!

This lecture will leave you feeling inspired, with a new found exuberance and affirmation that you too can be creative.

To Show or Not To Show?

So you're thinking about entering a quilt show? Or your friends are telling you that you must enter your latest and greatest. But you're not sure. Not sure if your quilt is good enough, not sure where to begin, not sure if you can take the critique, or just not sure about the whole process. In this lecture, I will walk you through it all, from various types of shows and entries to the judging and display process. Includes quilts I have entered in shows, along with their actual judges evaluations.

You will leave feeling confident enough to enter your quilt in the next show! After all, if no one enters shows, there wouldn't be any for us to go to!
