

LONE WORKER PERSONAL SAFETY DEVICES HEALTH PROFESSIONALS AND CAREGIVERS

Stay Safe and Protected in the Field

The GPS Safe personal emergency response (PERS) and safety device deliver immediate alert notification and protection including patented fall detection, ideal in the care and monitoring of patients and loved ones. With the press of a button, the GPS Safe device utilizes two-way voice to connect with our monitoring centre, to dispatch emergency personnel for immediately assistance or just to provide peace of mind.

The GPS Safe device uses multiple location service technologies including GPS and WI-FI to enable dispatch operators the ability to locate the device both at home, or when on-the-road. The long- lasting rechargeable device is lightweight yet ruggedized providing shatter resistance up to 2 meters and water submersion up to 1 meter for 30 minutes.

Advanced fall detection for 24/7 alerts to family and caregivers

Fully mobile for personal safety at home and on the go

Water-resistant to 1 meter (3.3 ft) for 30 minutes. Designed to be worn in the shower

Lone workers exist in nearly every industry, making them a wide and diverse market of customers

- Hotel, Casino, and Other Service Industry Workers
- Electrical / Telephone Wire and Tower Workers
- University Staff and Students on Campus
- VIPs, Professionals and Individuals
- Real Estate Agents
- In-Home Care Takers
- Manufacturing Workers
- Private Contractors

No Installation

GPS Safe is shipped pre-programmed and tested from the Oakville Trafalgar Memorial Hospital.

Lightweight and Discreet:

The GPS Safe device can be worn on a belt or on a lanyard under clothes for easy and hidden accessibility.

Rugged Casing:

Advanced durability for shatter resistance up to two meters and water submersion up to one meter for 30 minutes. (IK06 and IP67 ratings)

Hands-Free Voice Calls:

The device automatically calls the monitoring center when a fall is detected – no need to push a button to receive help.
