Cartridge Filter Housings

Avanale filter housings are manufactured from the highest quality, constructed of reinforced polypropylene (PP), acrylonitrile butadiene styrene (ABS)and polycarbonate (PC). They are 100% food grade with EPDM O'Rings and are ideal for use in RO and filtration systems. They are commonly used in the industrial and commercial industry in fields such as irrigation, farm, food and medicine. The Avanale housings are commonly used for domestic and industrial applications and fit most standard 10" and 20" filter cartridges.

Operating Data

Working pressure: 150PSI (Residential Housings 120PSI)

Max temperature : 50°C

Testing Data

Bursting pressure: 525PSI

Cycle Test: 0-150PSI, 100,000 cycles

Note standard diameter refers to 2.5" diameter

Note large diameter refers to 4" diameter - commonly referred to as "Big Blue" style

Melt Blown Filter Cartridges

Avanale's melt blown filter cartridges are self-bonded and structured with 3 different layers of fibre, thinner and tighter on the inside through to thicker on the outside. This unique design provides better dirt holding capacity and improved filtration, thus prolonging service life and lower operating costs. Our own inhouse/field "Silt Density Indicator "(SDI) tests have shown superior results than that of other filters purchased in Australia. Avanale imports quality filters, keeping margins low, thus offering a superior product at the best possible price.

Features

- # 100% Pure polypropylene construction
- # Wide chemical compatibility
- # No lubricator anti-static additives
- # Higher dirt holding capacity
- # Consistent filtration over the life of the cartridge
- # Low pressure drop & fits standard housings

Applications

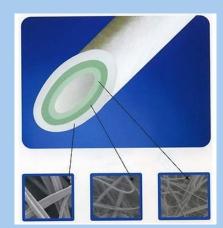

- # Residential & commercial water treatment
- # Fine chemical, reagents, solvents, resins
- # Reverse osmosis pre-treatment
- # Food & beverage, pharmaceutical
- # Make-up water

Specifications

String Wound Filter Cartridge

Avanale's string wound filter cartridges are structured loose outer layers and tight inner layers which can offer true depth filtration for high dirt holding capacity and extremely low media migration to ensure temperature and chemical compatibility./ The biggest advantage of the string wound filter cartridge is its exceptionally high structural strength, therefore, it can withstand severe operating conditions.

Features

- # Fits all the standard housings
- # Low pressure drop, high dirt holding capacity and long service life
- # Loose outer layers and tight inner layers offer effective depth filtration
- # Various filter media fit with various applications

Applications

- # Food & beverage
- # Semiconductor
- # Pharmaceuticals

Specifications

- # Outside Diameter: 55mm, 61mm, 63mm, 65mm, 115mm
- # Inner Diameter: 28mm, 30mm
- # Micron Rating (nominal): 1, 5, 10 20, 30, 50, 70, 100 Micron
- # Filter Media: Polypropylene, Cotton, Glass Fibre
- # Polypropylene material for non-organic solvent, maximum operating temperature < 60°C
- # Solvent, beverage, pharmaceuticals, maximum operating temperature: 120°C
- # Length: 5", 10", 20", 30", 40"

Activated Carbon Filter Cartridge

Avanale's sintered/extruded carbon block filter cartridges (CTO) use high - density activated carbon and exclusive inert adhesives as the main materials of construction. The large granular surface area has a tremendous capacity to remove chlorine, unpleasant odours, colours, as well as spores and microorganisms. The unique manufacturing techniques and material of the highest quality guarantee excellent durability, minimal pressure loss and high filtration rate. CTO filter element is made of coconut shell GAC which as a better filtration effect upon chemicals.

Features

- # Reduce chlorine, bad taste, odours
- # No release of carbon fines
- # Low pressure drop activated

Specifications

- # Outside diameter: 70mm, 115mm
- # Inner diameter: 28mm
- # Length: 5", 9-7/8", 20", 30", 40"
- # Micron Rating (nominal): 1, 5, 10 Micron
- # Filter media: Acid washed bituminous GAC & water washed coconut shell GAC, manufactured in a "block format" for maximum carbon volume - suits standard and BB type filter housings
- # Maximum pressure: 40PSI # End Cap : Polypropylene

ACIC Series Filter Cartridge

The powdered activated carbon impregnated cellulose filter cartridges are the composite combine of the performance of depth filtration and adaption of activated carbon fine. The outside deep fibre media can remove particles and the activated carbon in each filter cloth can absorb the smell, odour, sediment, pigment, VOC and organic chemicals. The inside fibre filter can prevent carbon particles and fine pollutants to pass through, ensuring the efficient quality and integrated filtration.

- # Nominal 10 particle removal rating
- # Absorption of organic substances by activated
- # Solution of photograph developing
- # Solution to remove oil & aromatic
- # Filtration & absorption finished in one time process

Application

- # Plating solution
- # Removing dissociative chlorine & volatile organic compounds (VOC) in solution
- # Drinking water & RO pure water treatment
- # Remove smell, odour, organic pigment
- # Remove organic chemical

Specifications

Outside Diameter: 58mm - 112mm

GAC Series Granular Activated Carbon Cartridges

GAC series cartridges effectively reduce unwanted tastes, odours as well chlorine tastes from your drinking water. They are designed to allow maximum contact between the water and carbon, ensuring maximum absorption. The construction of the cartridge allows water to enter at one end and pass through the entire length of the carbon bed before exiting the other end of the cartridge, while an internal expansion pad minimises channelling or bypass. Before the water exits the cartridge, a post filter helps reduce carbon fines and other suspended particles from the filtered water. The post filter is permanently fastened to an innovative support basket ensuring that it is firmly secured and eliminating any potential for bypass. GAC series cartridges are available in a variety of sizes and flow rates. They provide a very effective general-purpose drinking water filtration solution.

Features

- # Effective bad taste & odour reduction
- # High quality coconut shell granular activated carbon
- # Designed for maximum absorption
- # Post filter to reduce carbon fines
- # Available in a variety f sizes & flow rates

In-Line Filter Cartridges

Post in-line filters filled with coconut shell carbon are designed to reduce unwanted odour, taste and chlorine. The choice of polypropylene media used for sediment removal. In-line filters are an ideal choice of final polishing in home reverse osmosis drinking water systems, ice makers, as well as food service applications. Avanale's GAC In-line filters comply with NSF standard.

Features

- # Efficient removal of chlorine & organic chemicals
- # Improvement in the taste of the water
- # Installation eliminates the need for additional filter housing
- # Competitively priced carbon filters
- # Ideal for residential & commercial applications
- # All in-line filters include a "pre" & "post" filter

Application

- # Pre & post RO
- # Refrigerator/Ice maker
- # Drinking water purity

Big Blue Pleated Filter Cartridge

Avanale's Big Blue Filter Cartridges are made of pleated polyester filter media for low pressure drop, increased surface area and longer life.

Features

- # Pleated design, increased surface area and contaminant removal
- # Longer filtration runs for fewer change-out & less maintenance
- # Low pressure Drop
- # Designed for general water filtration purposes
- # Long lengths have netting to hold pleats in place

Specifications

Outside Diameter : 4½"
Inside Diameter : 1-1/16"
Centre Core : Polypropylene

Micron Rating: 0.5, 1, 5, 10, 20, 50 Micron

Filter Media: Polyester

Hurricane Filter Cartridge

Avanale's Hurricane Filter Cartridges are made of pleated polyester filter media for low pressure drop, increased surface area and longer area.

Membrane Pleated Filter Cartridge

Avanale's Polypropylene Pleated Filter High Precision Cartridge is constructed of micro polypropylene media and non woven or self net support. Adaptors are thermal welded with cartridges without using any glue on it so there will be no possibilities to cause the second pollution.

Features

- # High surface area design provides superior fow rate & high dirt holding capacity
- # Low pressure drop & long service life
- # Using 100% virgin polypropylene media with extensive applications
- # Wide micron range

Applications

- # Food, beverage, semiconductor, pharmaceutical
- # Solvents, acid, ink pre-filtration for RO & bottled water

Cartridge Filters (3,5,8 or 9 Rounds)

Avanale cartridge filter housing's are designed with high precision, mainly used in pre-treatment in industries such as sewage water treatment, beverage, food, electronics, sea water applications and pure water purification equipment.

Features

uPVC material has excellent corrosion resistance

Highest working temperature is 45°

Inlet & Outlet are featured under the same line connecting with 1½" or 2"

The distribution system is from bottom to top

Water is well-proportioned with small strike to cartridges & air is easy to be discharged

The bottom system is designed together as a whole with the top localizer & closure system

Cartridges are easy to be installed, pushed down and closed, preventing leaking inside

Stainless Steel Multi-Cartridge Filter Housings

Avanale offers high quality bag filter housings in both SS304 and SS316 for use in commercial and industrial water filtration as well as purification systems. With a wide range of sizes and flow capacities we can offer a number of options to satisfy your requirements.

Features

Accepts SOE Flat Closed End, SOE Fin Closed End or Doe Style Filter Cartridges

V-Clamp/Eye Bolt Flange allows quick, easy cartridge change out

SS316 materials of construction for maximum corrosion resistance

Matt finishing (standard) Electropolishing is optional

Shell O'Ring: EPDM (standard), Viton, Teflon encapsulated Viton

Maximum working pressure: 150PSI # Working temperature: 4-60°C

Bag Filters & Housings

Avanale offers a high precision, big flow, easy installation and easy maintenance bag filter system. It is widely used in different industries including foods, cosmetics, chemistry, medicine and textiles. The bag filter system consists of the housing, support basket and the filter bag.

Features

- # uPVC material has excellent corrosion resistance
- # The unique seal system makes the filter more secure
- # It can prevent the bag from being plunged into the support basket, thus no inner leak
- # Fantastic appearance & compact inner construct
- # High precision so the filter range can be from 0.5-200um
- # High efficiency, quick flow of liquid, big capacity of impurity
- # Price is very competitive

-BF-1-1 uPVC Bag Filter 225w x 820h, ANSI 150 Flanged Inlet/Outlet, 665mm Housing, Bag 1#, Flow 20m³/h
-BF-1-2 uPVC Bag Filter 225w x 1200h, ANSI 150 Flanged Inlet/Outlet, 1045mm Housing, Bag 2#, Flow 40m³/h

High Flow Filters

Avanale's high flow filter systems are used in applications such as sewage, wastewater, desalination, electronics and other industries. The PF filter system is featured with high flow, long service life and good operation of complex liquids. The filter system consists of the housing and the cartridge.

Features

uPVC material has excellent corrosion resistance

Flow is more than other cartridges

Longer service life, up to 3 times that of others

Handle design means the cartridge replacement is easier

-HF-20 uPVC High Flow Filter, 225w x 1006h, ANSI 150 Flanged Inlet/Outlet, 25m³/h -HF-50 uPVC High Flow Filter, 225w x 1506h, ANSI 150 Flanged Inlet/Outlet, 50m³/h

Stainless Steel Single Bag Filter Housings

Avanale offers high quality bag filter housings in both SS304 and SS316 for use in commercial and industrial water filtration as well as purification systems. With a wide range of sizes and flow capacities we can offer a number of options to satisfy your requirements.

Features

Side inlet piping connection

Unique 2-weld design

Buna N Seals as standard

Electro polishing stainless steel perforated basket

#1", 11/2" & 2" GB, ANSI 150 or DIN flanged connections

Maximum operating pressure 150PSI

Maximum operating temperature 150°C

Adjustable mounting legs

304 or 316 stainless steel construction

BFH1-1	SS Side Entry Filter Housing With Eye-Bolt Flange, 1½" Flange Connection, #1 Bag Filter
BFH2-1	SS Side Entry Filter Housing With Eye-Bolt Flange, 2" Flange Connection, #2 Bag Filter

Bag Filters

BF101	Polypropylene #1 Bag Filter, 178mm x 418mm, 1 Micron
BF105	Polypropylene #1 Bag Filter, 178mm x 418mm, 5 Micron
BF110	Polypropylene #1 Bag Filter, 178mm x 418mm, 10 Micron
BF125	Polypropylene #1 Bag Filter, 178mm x 418mm, 25 Micron
BF150	Polypropylene #1 Bag Filter, 178mm x 418mm, 50 Micron
BF1100	Polypropylene #1 Bag Filter, 178mm x 418mm, 100 Micron
BF1200	Polypropylene #1 Bag Filter, 178mm x 418mm, 200 Micron
BF201	Polypropylene #2 Bag Filter, 178mm x 813mm, 1 Micron
BF205	Polypropylene #2 Bag Filter, 178mm x 813mm, 5 Micron
BF210	Polypropylene #2 Bag Filter, 178mm x 813mm, 10 Micron
BF225	Polypropylene #2 Bag Filter, 178mm x 813mm, 25 Micron
BF250	Polypropylene #2 Bag Filter, 178mm x 813mm, 50 Micron

Softener Heads

Automatic softener 3/4"F inlet/outlet, flow 2m3/h, time type, Down flow, New model 63502, Martinn brand Automatic softener 3/4"F inlet/outlet, flow 2m3/h, volume type, Down flow, New model 63602, Martinn brand Automatic softener 1"M inlet/outlet, flow 4m3/h, time type, with handle, New model 63504S, Martinn brand Automatic softener 1"M inlet/outlet, flow 4m3/h, volume type, with handle, New model 63604S, Martinn brand Automatic Filter 2"M inlet/outlet, flow 10m3/h, top mount, New model 53610, Martinn brand Automatic Filter 2"M inlet/outlet, flow 15m3/h, side mount, Timer, New model 53515, Martinn brand

Larger range available - ask us for details

Contact us about what we can supply in regards to auto filter valve heads - we also have access to Autotrol & Clack

FRP Pressure Vessel Tank

Avanale's range of high quality FRP water treatment vessels utilise PE or FRP liner and are suitable for residential, commercial and industrial softening and filtering systems. With perfect performance and corrosion resistance, the vessels can be sufficiently equipped with mechanical control valves to meet the expectations and requirements of our clients.

- # Filament wound with epoxy resin
- # Full choice of pressure vessels available up to 73" Diameter with 94" height
- # Top & Bottom Openings available for 16" through to 63" Tanks
- # Maximum Operating Pressure: 150PSI # Maximum Operating Temperature: 49°C
- # 100% Corrosion resistant # Burst Pressure: 600PSI # Fatigue Cycle: 100,000 Times # Low Installation & maintenance

AVRO Reverse Osmosis Units & Ultrafiltration Units - Brackish & Sea Water Units

Avanale design and oversee the manufacture of the high quality AVRO Series Reverse Osmosis Systems. Designed in Australia and manufactured under strict quality controls overseen by Avanale, they cover a wide production range from 125 l/hr to 50,000 l/h. They feature easy installation, low maintenance and spare parts are kept in our Brisbane warehouse. The AVRO units utilise high quality components as well as being factory and industry tested to provide years of trouble free service.

Standard Features on the RO's Included But Not Limited To

- # Stainless Steel Frame
- # Thin Film Composite Membranes
- # Stainless Steel RO Vessels Seamless/FRP Housing
- # PLC Control or Standard Basic Controller
- # Power On/Off Switch
- #1 or 5 Micron Pre-Filter
- # Product Water Flow Meter
- # Concentrate Water Flow Meter
- # Recirculation Standard on 6000 system & Higher
- # High Pressure Pump Inlet & Outlet Pressure Gauges
- # Concentrate Outlet Pressure Gauge
- # Low Pressure Switch
- # High Pressure Switch Option
- # Sch80 Grey uPVC Pipe & Fittings, SS Optional
- # Level Control On/Off
- # Automatic Flush
- # Pre Treatment Interlock
- NOTE we can offer fully containerised "plug and play" systems
- Energy Recovery utilised on Sea Water units where applicable

Flow meters

Panel style rotameters

MT-Z-3001 Flow meter Panel Mount 0.2-2GPM, G 1/2", BW Style

MT-Z-3002 MT-Z-3003 MT-Z-3004

In-line style rotameters

 LZS-15-2
 Flow meter In-Line,0.006-0.06m3/h,OD20 Glue

 LZS-15-8
 Flow meter In-Line,0.1-1m3/h,OD20 Glue

 LZS-25-1
 Flow meter In-Line,0.1-1m3/h,OD32 Glue

 LZS-25-2
 Flow meter In-Line,0.16-1.6m3/h,OD32 Glue

Pump Controller Contact us for details

Pumps

CHL2-40-220V-SS304 CNP horizontal Pump CHL2-40, 220V/50HZ, single phase, 0.55kw, SS304, thread, SS304

CHL4-40-220V-SS304 horizontal Pump CHL4-40, 220V/50HZ, single phase, 0.75kw, thread, Eng plate, SS304 horizontal Pump CHL4-40, 220V/50HZ, single phase, 0.75kw, thread, Eng plate, SS316 CHLF4-50-220-SS304 CNP horizontal Pump CHLF4-50, 220V/50HZ, single phase, 1.1kw, thread, SS304 CNP horizontal Pump CHLF4-50, 220V/50HZ, single phase, 1.1kw, thread, SS316 CHLF4-60-220V-SS304 CNP horizontal Pump CHLF4-60, 220V/50HZ, single phase, 1.1kw, thread, SS304

CDLF2-13 Vertical Pump CDLF2-13, 220V/50HZ, single phase, 1.1kw, flange

RO Membrane pressure vessels & spares

SS-4021-12SL SS Membrane Housing, 4021 SS304 seamless 1/2NPT nylon end cap, with accessories

SS-4040-34SL-316L 4040 SS316 seamless 3/4" , with accessories SS-4040-12SL-316L 4040 SS316 seamless 1/2NPT , with accessories

MF4E600-1-WH FRP Membrane Housing 4", 600PSI, one element, end port, white colour

EDCP-40-34-1 End cap for SS membrane housing 4", 3/4"NPT,Nylon (one side)

OR-SS4040-S O-ring Small o-ring, for SS4040 membrane housing OR-SS4040-B O-ring Big o-ring, for SS4040 membrane housing

EDCP-40E300-1234NPTMF End cap For 4" FRP Membrane Housing,300PSI,end port,1/2*3/4NPT
OR-4E300-S-MF Small O-ring For FRP Membrane Housing,4",300PSI,end port
OR-4E300-L-MF big O-ring For FRP Membrane Housing,4",300PSI,end port
Clamp--40 For SS membrane housing 4", full set2pcs with strews, SS304
