

Men and Women For a Representative Democracy In America

June 14, 2021

The Honorable James M. Inhofe
Russell Senate Office Building –Room 205
1st & C Sts., NE
Washington, D.C. 20510

Dear Senator Inhofe:

It appears that with each decree and stroke of a pen, our country's Administration chooses to challenge God, morality, the U.S. Constitution, and common sense. Our Organization, Men and Women for a Representative Democracy, insists that there is no place in America's military for racist training. We strongly support the bill, Combating Racist Training in the Military Act, to be introduced by Senator Tom Cotton (R- Arkansas). We have members around the country and need your input in this matter.

Promoting this critical race theory does nothing but corrupt the inseparable and power of troops. As someone has brilliantly stated, "We need to teach our young troops to befriend, fight alongside, and, if necessary, die for their comrades on the battleground-not to obsess about skin color".

We observe that the military is being taken over by WOKE. The language of leftists and globalists can be confusing; the word "diversity" generally means more leftists. Leftists are also incredibly racist towards any minority person who argues from a conservative or moderate position.

The goal of the Pentagon, under Biden, is to divest military ranks of conservatives and replace them with friendly leftists. The Pentagon is now openly discussing plans to comb through the social media histories of troops in order to root out those with "extremist backgrounds" (conservatives and constitutionalists). It is a political and ideological cleansing of the armed forces. Sounds like reverberations of Nazi Germany!!

Even more alarming is the acceptance of transgender in the military. Furthermore, a "gender change" is at the expense of American Taxpayers.

Sincerely,

Member
