

# Serenje Orphans Children's Home (SOCH)

## Introduction

30<sup>th</sup> October, 2012.

This is the second report written by three orphanage personnel. It provides information in all departments at the orphanage. Its SOCH,s hope that readers will enjoy it.

## Deputy Director's Part report

The "Read Everyday" programme has successfully continued while baring fruits. Children are standing out to read and learning to read fluently.

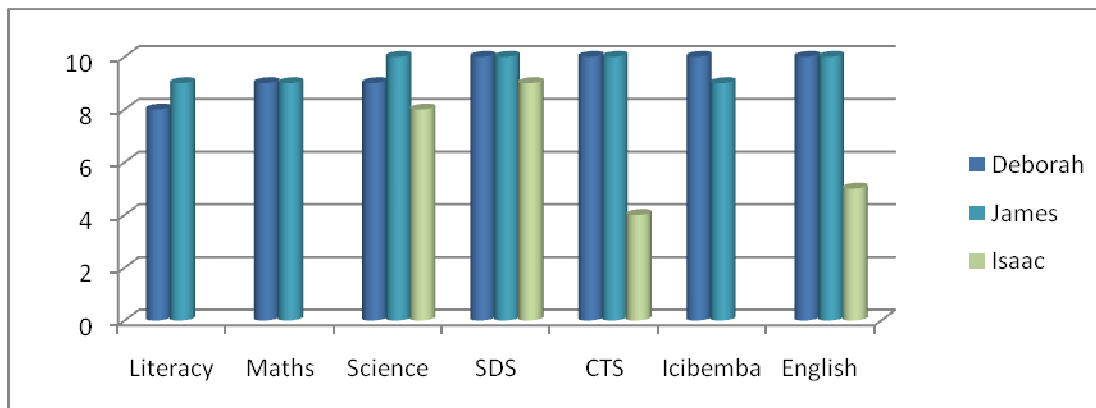

Reading programme in progress

Irada with his cake

We are also analyzing the school performance in their end of term test at their respective schools. For example we have sampled the three pupils' performances that are in the same grade as shown in the graph below. This is done in order to see how best we can help children's competence in school. The graph illustrates the performance of each child in a particular subject out of 10 total marks. In this we are able to tell which child is remaining behind in a particular subject.

In addition to this, Orphans in grades 7 and 9 are writing exams. One impressive thing is that the children have proved to be very good at practical. Very beautiful and delicious testing cakes were made . Irad Kasama, shown above, is one example who brought a nice cake out of his practical examinations.

### Matron's Report

It has been interesting that the sewing of 18 uniforms for Kambobe School and one for Boma School going children have been completed. What is remaining is to fix buttons to all uniforms. This will assist the children to look smart when going to school because they have two pairs of uniform. If possible there is need for monies to buy material to sew for the other remaining children by the beginning of next year and a mortar to make sewing easier.

Kitchen benches on mats

uniforms sewn

school bags made

Children are now happy to have footwear/sleepers to put on when moving around the orphanage. It has assisted in not dirtying their beddings.

Clothing allowance in use(footwear bought)

The sewing of bags have been completed. This has been done with more involvement of children.

So far there has been no serious or any outbreak of diseases at the orphanage and the children are health sound.

## OTHER PROJECTS

The old dormitory roof has been repaired and there is no leaking expected. Currently, the front wall is being built. The drainage system and the orphanage paths and loans are being improved. The laundry ironing bench and the clothing shelves are in progress of being made.

Dormitory reroofed and path ways done

Surrounding loans nicely done, laundry shelves and front half wall fence in progress

Entry road being nicely done

## Conclusion

In general, this report provides an update that the funded projects are in progress while others are finished. Sponsors, therefore deserve a credit for job well done in fundraising. SOCH says, Thanks you!
