

AREACARE PLUS PRESSURE SURFACE MATTRESS

- The three-layered zoned design of this very high-risk pressure surface is ideal for patients with poor mobility or uncertain skin sensitivity.
- A top layer of high density, temperature-sensitive, memory foam conforms to the body's shape, working in combination with the higher resistance support layer to disperse pressure evenly.
- The top layer also incorporates a special immersion, slow recovery foam foot zone for the ulcer prone heel area.
- Three-layer zoned design with a hinge to suit profiling bed
- Multi-density foam layers for maximum strength and comfort; protected by a cotton inner lining
- Vapour permeable, bacteriostatically treated, fire retardant and water-resistant top cover
- Four-way stretch cover material for enhanced anti-shear and anti-friction benefits
- Waterfall skirt to protect from moisture ingress; welded and taped seams for infection control

Warranty
2 Years Cover
6 Years Body

Compliance
BS7177
