Process – Go through each item and discuss people's answers. Take note of situations when one person's name comes up for a majority of the answers for a particular question. Everyone should keep track of the times when they were the majority answer for a particular question by circling the number of that question.

- **Did your name come up as the most popular answer for any of the questions? If so how do you feel about it?**
(Counselor should be careful if someone is potentially upset by the groups answers)
