

## Melissa Hesser- Certified Veterinary Technician

Melissa is from Roscoe, IL. She graduated from Madison College in May of 2016 as a certified veterinary technician. She has been working in the Janesville area for the last 4.5 years, but recently decided to join our team. Some veterinary interests include patient wellness, client education, and laboratory science.

Mel lives in Janesville with her husband, their son, and three rescue pets. In her free time, she loves spending time outdoors, camping, photography/art, and spending time with her family.

If you ask Mel what she enjoys about her job, she will say that she loves to be able to educate clients and to give each pet the best care possible. She appreciates that working as

a CVT gives her

the opportunity to be there for clients and pets through all life stages.

Welcome to our team Mel! We are glad you've joined us, and can't wait for you to help us be the best vet clinic in the area!
