

AI-POWERED MOLD & AIR QUALITY TESTING

**Revolutionary, affordable,
essential for your peace of mind.**

The WHO says that over 50% of homes have mold problems*, but only 5% ever get tested.

Now, for the first time ever, you can see what's in your home's air, and get the information you need to take action if needed.

Why perform a home Mold Test?

- Seller disclosure indicates past water damage or mold issues
- Mold growth suspected
- Infants, immunocompromised members of your household, elderly
- Sensitivities to mold, allergies, asthma, ...
- Water damage found in your home
- High humidity and/or condensation
- Musty odors detected

BENEFITS OF AI-POWERED MOLD TEST

Low-cost, affordable

Quick turnaround
