

Dear _____,

I hope you have had a wonderful weekend with a wonderful group of Men who are filled with the love of Christ. Isn't it cool how so many people have given so much time and energy just to help you feel the love of Jesus? By the time you read this it will be almost over and you will have many memories and events to process. One of the things they say is "It keeps getting better" and I think they are right. My weekend has helped me be more confident in my self and the love of Jesus.
