Have you ever wondered why there are so many different religions? The truth is we were created with a need for spiritual relationship. When Adam sinned against God Almighty, the spiritual relationship with God died. There have been several people who

have had spiritual encounters. Then they created the religious church based on the spiritual encounter. This is the truth. Evil spirits of light have influenced many people to create false or partly true religions. God stepped in because he has had enough. It is time for the world to do the true will of God. Heaven Awareness Lifestyle will replace all religion in this world, and there will be Heaven here on Earth as it is written in the Lord's prayer.
