

SOCIAL STUDIES

For use with "Clayton's Birding Adventures"

The City Council is considering a request from a local business owner to buy 5 acres of the 15 acre Eagles Park. The business will employ 20 people.

Using the information from "Clayton's Birding Adventures" and any other print or digital sources, analyze the pros and cons of this request. Plan a 3 minute presentation at the next City Council meeting stating why they should or should not allow this purchase.

(Per KY Program of Studies 2006, Social Studies Standards - Government and Civics)

SCIENCE

For use with "Clayton's Birding Adventures"

1) Using "Clayton's Birding Adventures," and any other print or digital sources, design a poster showing the needs of birds and how they are dependent on other earth materials for their survival.

2) Your neighbor is setting up a bird feeder for the first time. Drawing from the information in this book and any other print or digital sources, give your neighbor at least 4 suggestions.

(Per Next Generation Science Standards 2013 - Interdependence of Relationships in Ecosystems)
