Child Care Services Shining Star: Elizabeth Zanetti

On Saturday, January 30, 2015, Cohort III had a very special visit from Elizabeth Zanetti. Ms. Zanetti graduated from the second cohort of <u>Quality Environments in A Family Child Care Setting</u>. This is a four session cohort in which participants explore how to enhance their family child care home through training on the Family Child Care Environmental Rating Scale (FCCERS-R) and review of Family Child Care Homes: Creative Spaces for Children to Learn by Linda J. Armstrong. Once participants completed the training they received individualized technical assistance and are rated using the FCCERS-R.

Ms. Zanetti shared the training has had a positive impact on her program. She has made several changes to her environment and how she communicates with parents. Ms. Zanetti's rating on the FCCERS-R was an average score of 7! We are so proud of her and look forward to seeing her program continue to flourish.

If you would like to know more about the Family Child Care Cohorts, call our your Licensing Specialist today.
