Who are we?

Flo's Fancies Limited, based in the South East of England, is a family owned business founded in 2010.

For over 7 years, Flo's Fancies has been designing and bringing current trends into the car. From cute pug air fresheners that hang on the rear-view mirror to vintage bunting that attaches to the rear window.

Our innovative designs have helped the company experience steady regional growth throughout the 7 years of operation.

Since 2010 the company has grown substantially year on year and so has our product offering. We now have over 45 air fresheners in all different shapes and sizes, however we will not stop there as we will continue to design new products to ensure we can always offer our customers the current trends hitting the market.

We are pleased to supply to all regions across the UK, from single shops to national retailers.

What sets us apart?

It's simple, we provide you with the current trends in the market and not just the same air freshener in multiple colours or fragrances.

What's more, given our company size we do not have to jump through hoops and political red tape, which enables us to be more agile and flexible than other leading air freshener brands. So in the unlikely event that we don't have what you are looking for, we will design it for you within 72 hours and have your new design on your shelves within 45 days!

Flo's Fancies Commitment

Flo's Fancies continues to provide you with on trend air fresheners and the best service at a competitive price. We really do value your business. If you have any feedback on how we can improve our products and/or service, we'd love to hear from you!
