Once pupils are secure in the above, a suggested progression would be: • Consolidation and ongoing practice of all multiplication and division facts up to 12 x 12. • Differentiated programme of support to address gaps in multiplication tables knowledge. • Use of multiplication and division facts to derive associated facts. For example, if $8 \times 6 = 48$, what other facts can we derive? • Development of multiplicative reasoning – links between Multiplication and Division, and Fractions and Ratio.						

Please note that Diagnostic Tests are available for each of the facts focused on for each half term.
