

MECRAFT REFLEX COMFORT GRIP CUTLERY

- This range of Reflex Comfort Grip Kitchen Utensils has been designed with a soft-touch over moulded handle to provide a more comfortable slip resistant grip.
- The handle is set at an angle to minimise wrist movement when using the product and the grip is slightly larger than the standard range to reduce the amount of finger movement required to grip the handle.
- The utensils are available with the same stainless steel blades as in the standard Reflex range.
- Dishwasher safe.

Warranty
1 Year
