

# Rock Pipit

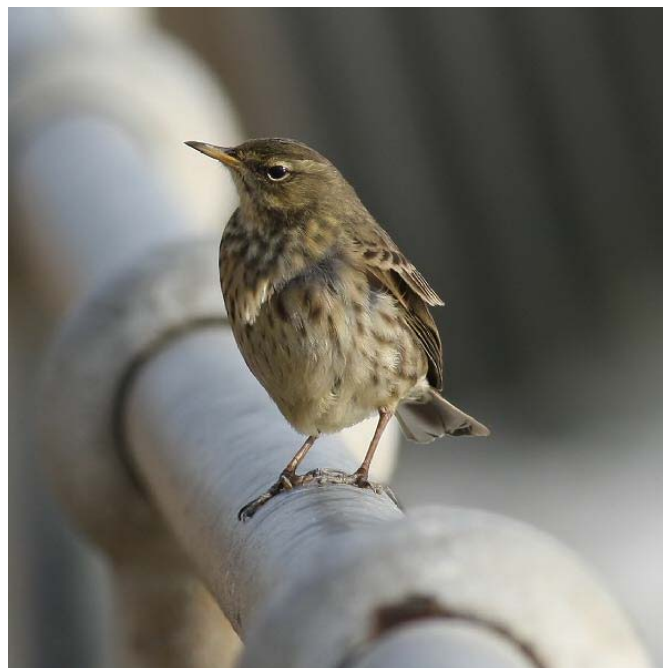

*Anthus petrosus*

Category A

Breeding resident, winter visitor and passage migrant

A small resident population exists on the east coast of Kent, but it is essentially a coastal passage migrant and winter visitor.

The full species account will follow but the breeding and wintering distribution maps based on the 2007 – 2012 BTO / KOS atlas are provided below.

Rock Pipit at Folkestone Sands (Brian Harper)

The distribution of breeding records recorded in the BTO/KOS Atlas (2007 – 2012) is shown in figure 1.

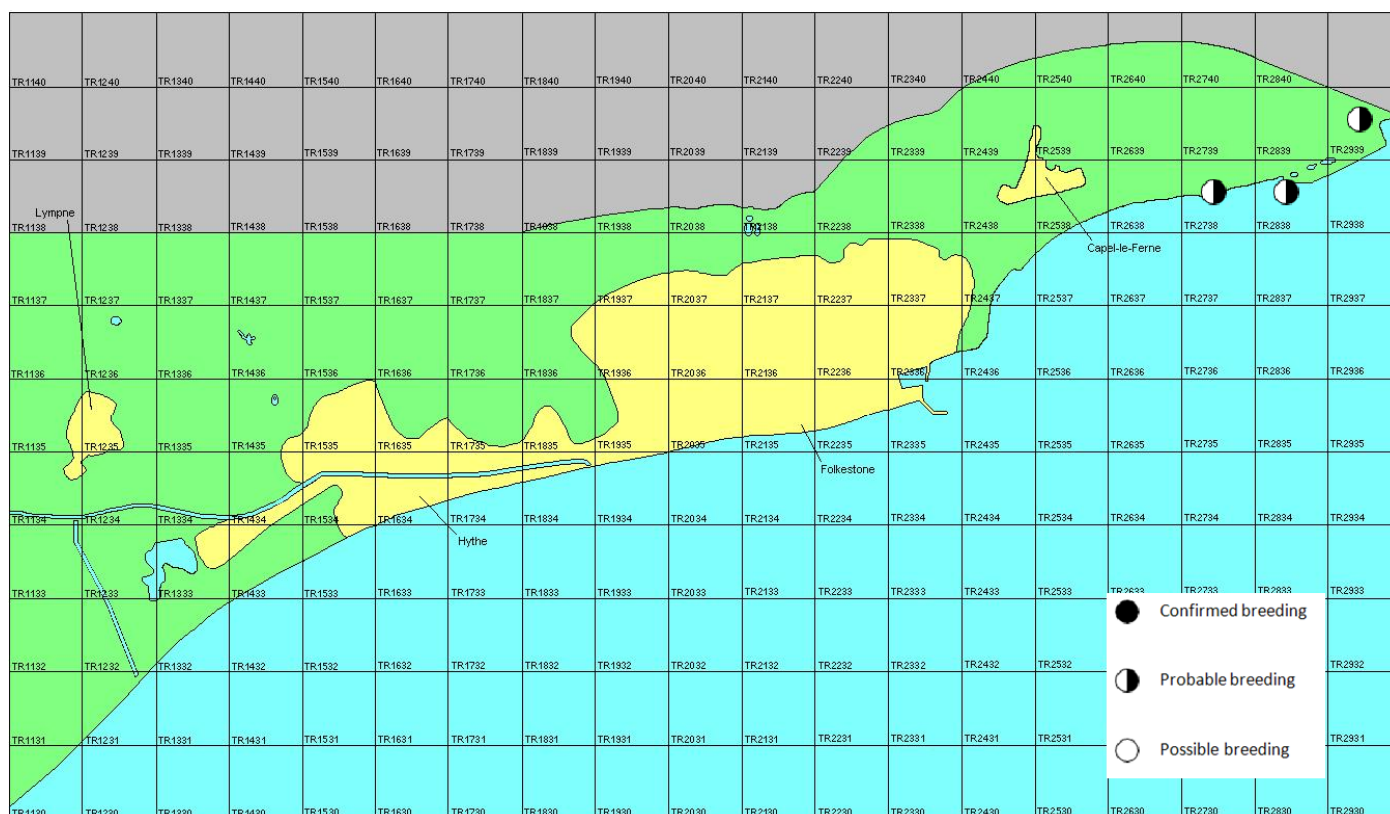

Figure 1: Breeding distribution of Rock Pipit at Folkestone and Hythe by 1km square

The distribution of winter records recorded in the BTO/KOS Atlas (2007 – 2012) is shown in figure 2.
