

# CAIRMAX DUO FOAM AIR SUPPORT - HYBRID

- The CairMax Duo is a versatile foam air support surface with the ability to alternate between static or dynamic support, in response to the needs of the patient.
- Mattress functions as a static pressure relieving surface without the control unit, however when clinically required, it can step up to provide dynamic support with the control unit connected.
- No concerns over correct pressure level settings with AutoCair automatic weight sensing technology, delivering fail-safe patient comfort and support.
- This plug and play system is very simple to use and requires minimum training to operate, making it ideal for community or aged care use.
