

# Ohio Regional User Group

for PeopleSoft and Oracle Cloud

## Spring 2021 Conference

**Session Name:** Robotic Process Automation (RPA) common use cases for ERP and HCM

**Presenters:** Bill Gibbard, Newbury Enterprise Services

**Time:** May 19, 3:00pm

[Register](#)

**Abstract:**

Robotic process automation with machine learning capabilities are provided by UiPath and can be used for automation of many HR and Financials use cases. Most companies want an easy way to begin artificial intelligence solutions for common high volume and tedious tasks within recruiting, onboarding, terminations, time entry, procurement and reconciliations. We will demonstrate some features and discuss case studies and real world success stories with this revolutionary technology.
