Sir / Madam,

I've known Richard Childers for about 10 years. He and I worked together at Salem National Lease for several of those years and have remained good friends. He was Salem's Vice President of Rental operations.

Richard approached me last year in March 2019 after leaving Salem to start a new company called FleetTax Recovery Specialists. They retrieve special tax refunds for companies who are in the trucking and/or warehousing industry, like Highways & Skyways.

We arranged to have his partner; Walt Church come on site to do all the work. He went through several boxes of files to compile the info they needed to prepare and file our claim. We were thrilled to receive a six-figure refund, and have since opted to retained FleetTax to help us claim future annual refunds as well.

Richard and Walt are very professional and highly efficient. You can trust they will leave no stone unturned when it comes to securing your unclaimed refunds.

Best Regards,
