

WATCHERS

Watchers are used for two reasons; one, to communicate/spy, and one to attract and invite in evil spirits. Totem poles, wind chimes (sound to invite evil spirits in), statues, idols, etc., are commonly used to invite the evil spirits in, very similar to the Halloween idea.

Tattoos act as watchers on people, and must be removed at whatever cost.

The purpose of occult drawings is to attach demons to a particular place. Through the drawing, demons are attached to the site of the graffiti. Ezekiel explains his experience with such occult graffiti in **Ezek. 8:9-10** "*And He said to me, "Go in and see **the wicked abominations** that they are committing here." So I entered and looked, and behold, **every form of creeping things and beasts {and} detestable things, with all the idols of the house of Israel, were carved on the wall all around.**"* These drawings are very dangerous, because they allow demonic surveillance over a particular area. These familiar spirit demons can actually be placed on or in almost any object, including pets, homes, graffiti, art, etc. Witches can place a "watcher" demon in a specific spot, and then go there when they wish, and receive the information about what went on in that spot at a particular time. It is, you might say, like having a "private eye" watching secretly from a distance, using surveillance cameras and phone bugs.

These drawings come in various shapes and sizes, but always have one thing in common. They all contain "eyes", or at least one eye; these eyes are symbolic of the surveillance technique of the demonic, and are a secret sign to all those involved in the occult. Most people who see these "watchers," just think it's a kind of art or sick graffiti, and don't pay much attention to them. That is exactly what the Satanists want you to think.

It is very common to have watchers involved in gang related graffiti, allowing the gang members, who are part of the Brotherhood, to know when other gang members are in their turf. This gives them the opportunity to keep ahead of their adversaries, and deal with them accordingly.

Many occult drawings are placed on dedicated territory of Satan. It is possible to remove the demons placed in the drawings depending on many factors. The best way to

remove the demons from these graffiti paintings are to anoint them with holy oil, and command the demons to be gone. This must be done by a Believer with the power and authority of Yahveh. In cases where possible, the drawings should be painted over after anointing.
