Introduction

MOCfor Global PMA & Global Pandemic Economic Recovery Systems (GPERS)

MOCfor Global PMA is a private membership association and leading provider of *“Total Life Make-Over Plans.”* **GPERS** is a globally unifying humanitarian effort to provide reliable income for people in crisis until reaching financial stability; then continues serving as a **Universal Basic Income (UBI)** for as long as participants remain active within the system. A **ONE-SIZE-FITS-ALL** solution, **GPERS** is scalable from single communities to nations of participants. Fully operational, it can resolve the following global crises:

1

The Unemployment Crisis: Register all persons needing income as new members. Create a new global workforce and new trade relations.

2

The Personal Financial Crisis: Strategically place members on Cryptocurrency Smart Contract Crowdfunding Platforms to raise funds for immediate financial needs.

3

Establish Income Equality/Jumpstart Economy: Build crowdfunding accounts to a yearly base of \$100K while educating members on personal finance and trade development.

4

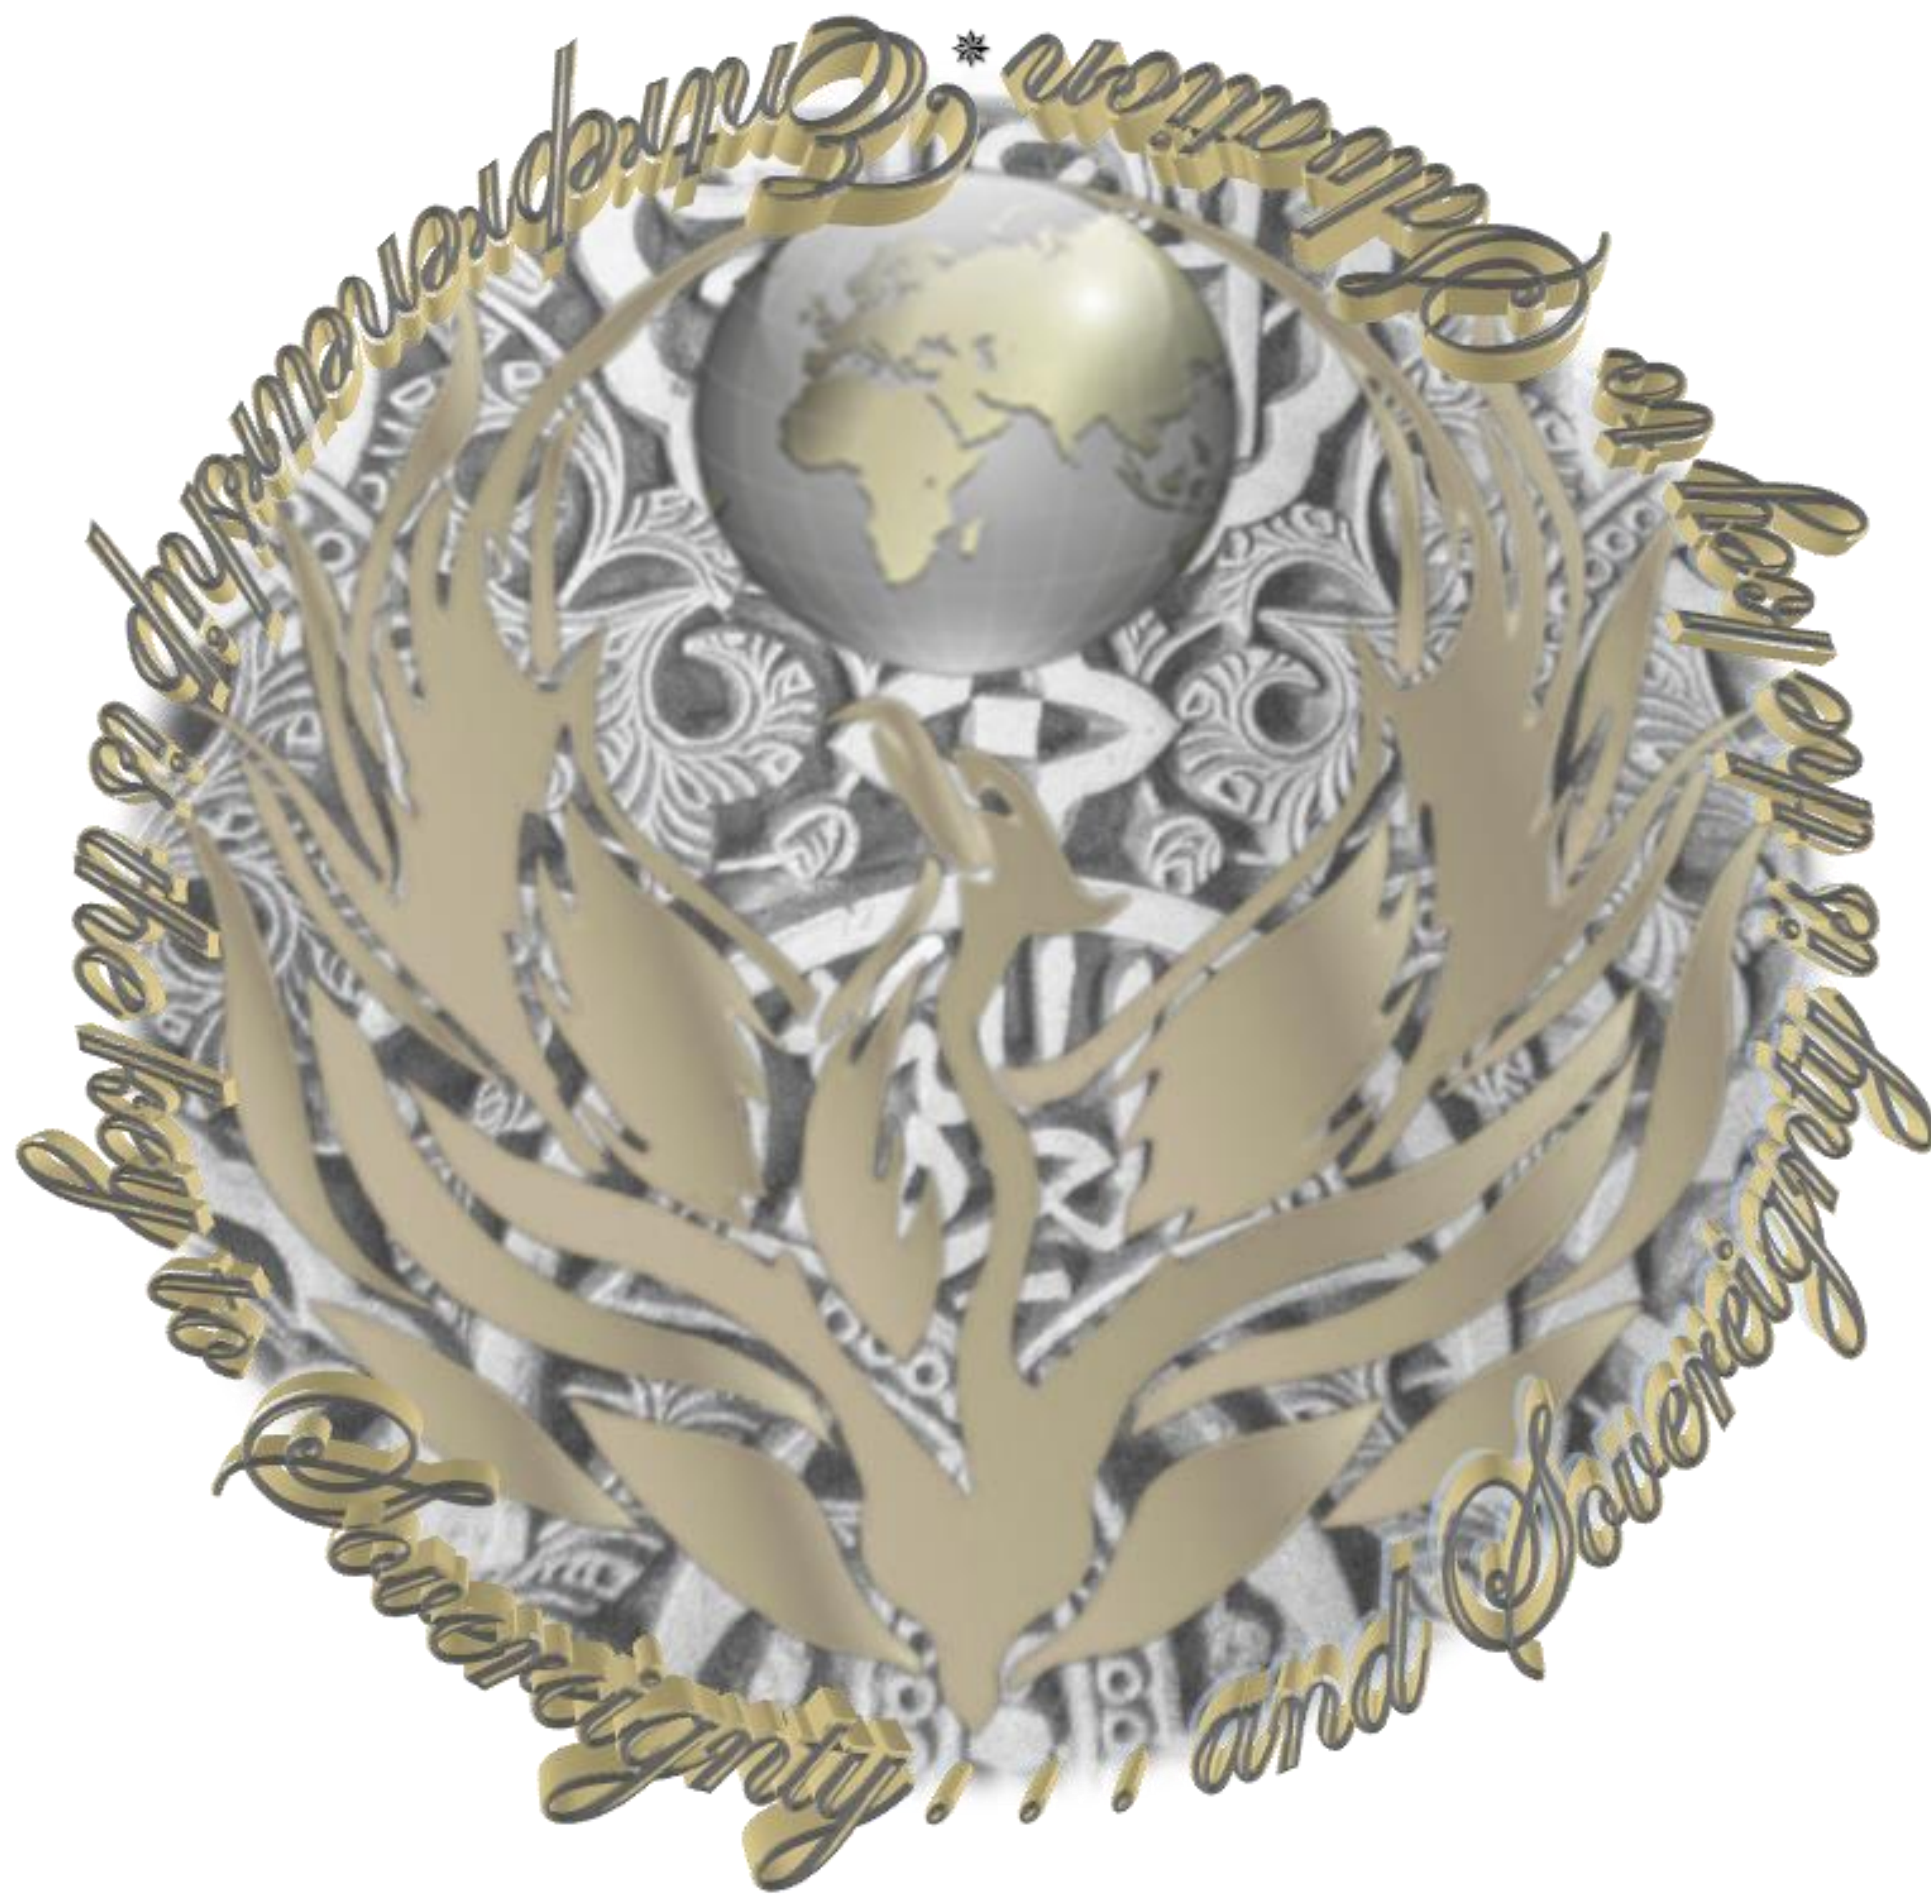

MOCfor Logistics and Infrastructure: Membership levels are also titles for positions that can be earned in evolving governments.

5

Independent Source of Funding: Sustained by members' participation in smart contract crowdfunding and a merit system, GPERS' UBI can be relied on to bankroll member's assets.

6

Revive Failing Industries: GPERS' UBI provides sustainable income that can subsidize labor costs, support a workforce of unlimited size, and stabilize markets.
