EXECUTIVE ORDER 0007

PEDOPHILIA DEEMED TERRORISM

By virtue of the authority vested in me, by the Constitution of the Commonwealth of Dracul of 2017, it is hereby ordered as follows:

The protection of our younger generation is critical to both their mental health and their experiences in life, which have both positive or negative consequences. The act of sexually assaulting a child, or anyone for that matter is grotesque and shall never occur.

Dracul has on more than one occasion dealt with individuals who've taken the opportunity to access our children within the community. Sending suggestive images and discussing adult topics has caused alarm within the past two years. Normally those labeled pedophiles have been removed from the community without further actions taken, except in the case of police being notified.

It is in this matter that any actions taken against children, whether it'd be physical or virtual in sexual nature, are considered terrorism and will not only result in the immediate removal from the community, but an investigation into the matter by macronational police, with Dracul's full cooperation as always.

Authorized and directed to publish this memorandum in the National Register.
